creating the template shortcode in wordpress

```
function news_shortcode() ob_start();

    get_template_part('trendisngnews');
    return ob_get_clean();
}
add_shortcode( 'news_shortcode', 'news_shortcode' );
```

displaying the all post and featured image and link to it

```
<?php
    $loop = new WP_Query(array('post_type' => 'post', 'posts_per_page' => -1));
    $count = 0;

    if ($loop) :
        while ($loop->have_posts()) : $loop->the_post();
            ?>
            <ul class="nav">
                <li><a href="<?php the_permalink() ?>"> <?php the_title(); ?> </a></li>
                <li><a href="<?php the_permalink() ?>"> <?php the_post_thumbnail(); ?> </a></li>
            </ul>
            <?php
                endwhile;
            else: ?><div>no post images</div><?php
            endif;
        ?>
```

Create Custom Page

```
<?php
/*
Template Name: Name of Template
*/
?>
```

=====

wp image path

```

```

get Template Part

```
<?php get_template_part( 'foo','bar' ); ?>
<?php echo get_home_url(); ?> --- home url
```

```
<?php echo do_shortcode('[CONTACT-US-FORM]'); ?>
```

```
include ----- ../wp-content/themes/your-theme-slug/foo-bar.php
```

Trimming post content

```
<? php echo wp_trim_words( get_the_content(), 40, '...' ); ?>
```

add image size thumbnail

```
<? php add_image_size( 'wordpress-thumbnail', 200, 200, array( 'center', 'center' ) ); ?>
```

Create Custom Post

```
add_action('init', 'project_custom_init_Blog');

function project_custom_init_Blog()
{
    $labels = array(
        'name' => _x('Blog', 'post type general name'),
        'singular_name' => _x('Blog', 'post type singular name'),
        'add_new' => _x('Add New', 'Blog'),
```

```

        'add_new_item' => __('Add New Blog'),
        'edit_item' => __('Edit Blog'),
        'new_item' => __('New Blog'),
        'view_item' => __('View Blog'),
        'search_items' => __('Search Blog'),
        'not_found' => __('No Blog found'),
        'not_found_in_trash' => __('No Blog found in Trash'),
        'parent_item_colon' => '',
        'menu_name' => 'Blog'

    );

$args = array(
    'labels' => $labels,
    'public' => true,
    'publicly_queryable' => true,
    'show_ui' => true,
    'show_in_menu' => true,
    'query_var' => true,
    'rewrite' => true,
    'capability_type' => 'post',
    'has_archive' => true,
    'hierarchical' => false,
    'menu_position' => null,
    'supports' => array('title', 'editor', 'author', 'thumbnail', 'comments')
);
// The following is the main step where we register the post.
register_post_type('blog', $args);

// Initialize New Taxonomy Labels
$labels = array(
    'name' => _x( 'Category', 'taxonomy general name' ),
    'singular_name' => _x( 'Category', 'taxonomy singular name' ),
    'search_items' => __('Search Types' ),
    'all_items' => __('All Category' ),
    'parent_item' => __('Parent Category' ),
    'parent_item_colon' => __('Parent Category:' ),
    'edit_item' => __('Edit Category' ),
    'update_item' => __('Update Category' ),
    'add_new_item' => __('Add New Category' ),
    'new_item_name' => __('New Category Name' ),
);
// Custom taxonomy for Project Tags
register_taxonomy('category_blog', array('blog'), array(
    'hierarchical' => true,
    'labels' => $labels,
    'show_ui' => true,
    'query_var' => true,
    'has_archive' => true,

```

```

    'rewrite' => array( 'slug' => 'blog-category' ),
  ));
}

```

Custom logo upload

```

<a href='<?php echo esc_url(home_url('/')); ?>' title='<?php echo
esc_attr(get_bloginfo('name', 'display')); ?>' rel='home'>
    <img src='<?php echo esc_url(get_theme_mod('m1_logo')); ?>'
alt='<?php echo esc_attr(get_bloginfo('name', 'display')); ?>'>
    </a>

```

Function.php

```

function m1_customize_register( $wp_customize ) {
    $wp_customize->add_setting( 'm1_logo' ); // Add setting for logo uploader

    // Add control for logo uploader (actual uploader)
    $wp_customize->add_control( new WP_Customize_Image_Control( $wp_customize, 'm1_logo',
array(
    'label'    => __( 'Upload Logo (replaces text)', 'm1' ),
    'section'  => 'title_tagline',
    'settings' => 'm1_logo',
  ) ) );
}

```

Add Span tag in Text Editor

```

add_action( 'customize_register', 'm1_customize_register' );

// for support i tag in wp text block

function override_mce_options($initArray) {

    $opts = '.*[*]';

    $initArray['valid_elements'] = $opts;

    $initArray['extended_valid_elements'] = $opts;

    return $initArray;

}

add_filter('tiny_mce_before_init', 'override_mce_options');

```

Hide Admin Bar

```
// hide admin bar

add_filter('show_admin_bar', '__return_false');
```

Add Script in function.php

```
add_action('wp_footer','addmyScript');

function addmyScript() {
    ?>
    <script>
        jQuery(document).ready(function() {
        });
    </script>
    <?php
}
```
